Conference Synopsis

Join us at the inaugural Conference on Ophthalmic Nursing, a pioneering event dedicated to recognizing ophthalmic nurses' vital role and evolving contributions to eye care across the Asia Pacific region. This virtual conference, scheduled for 21st September 2024, aims to highlight best practices in eye care driven by nursing innovations and leadership.

Keynote Speaker

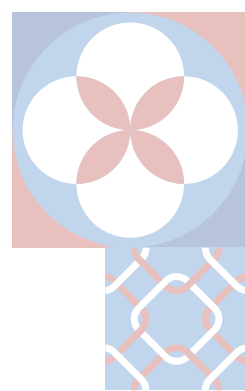

Dr Loh Huey Peng

Director of Nursing,
Singapore National Eye Centre

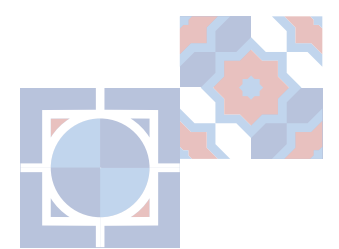

Co-Director (Clinical),
SingHealth Duke-NUS Institute for
Patient Safety and Quality

Director, Nursing Wellness and Engagement,
SingHealth

We are honoured to have Dr Loh Huey Peng, a distinguished nurse leader and expert in Ophthalmic Nursing from Singapore, as our keynote speaker. With her extensive 30 years of nursing experience and the prestigious President's Award for her contributions to the nursing profession, Dr. Loh will share her invaluable insights on the dynamic shift in ophthalmic nursing roles within clinical practice and leadership.

In her keynote lecture, "**Nurses Kaleidoscope: Evolving Mosaic in Nursing Roles,**" Dr. Loh will explore ophthalmic nurses' diverse and expanding roles and discuss her initiatives in developing a multi-skilled and agile nursing workforce through professional growth opportunities and personalized mentorship.

Conference Highlights

• **Evolving Landscape of Ophthalmic Nursing:** Delve into the changing roles and opportunities within the field of ophthalmic nursing.

• **Pushing Boundaries in Nursing Practice:** Discover how ophthalmic nurses extend their practice beyond traditional scopes through innovative community-based initiatives to prevent blindness.

• **Impactful Stories and Experiences:** Hear inspiring accounts that highlight the profound impact of ophthalmic nursing on patient care.

• **Support and Empowerment:** Learn strategies for supporting and empowering the nursing workforce, ensuring their well-being and professional development.

Symposium Sessions

1	Elevating the Nursing Workforce: Upskilling, Training, and Education: Focus on enhancing the skills and education of ophthalmic nurses to meet future challenges.
2	Here! There! Everywhere!: Practicing Above the Scope: Examine ophthalmic nurses' expanded roles and advanced practices in diverse settings.
3	Preventing Preventable Blindness: Bringing Ophthalmic Care to the Community: Explore community-based initiatives and their effectiveness in reducing preventable blindness.
4	Evidence-Based Projects for Improving Ophthalmic Nursing Care: Highlight research and quality improvement projects that enhance nursing practices and patient outcomes.
5	Happy Nurse, Healthy Nurse: Initiatives for a Healthy Work Environment: Discuss strategies for creating a supportive and healthy work environment for ophthalmic nurses.
